Airepure Technical Services Division

The Airepure Technical Services Division of Airepure Australia Pty Ltd is a NATA accredited facility that complies with the requirements of ISO/IEC 17025:2005 (Airepure Australia Accreditation Number: 19257)

The National Association of Testing Authorities, Australia (NATA) provides a foundation for confidence in Australia's calibration, testing, and inspection activities.

NATA is the authority responsible for the accreditation of laboratories, inspection bodies, calibration services, producers of certified reference materials and proficiency testing scheme providers throughout Australia.

Airepure Technical Services certify equipment to comply with specific Australian Standards for performance including:

13.69 Controlled Environments

- .01 Clean Rooms and Workstations
by the methods of-
AS 1807.1, 3, .5, .6, .7, .8, .10, .15, .16, .20, .21, .22, .23, .24

ISO 14644.1 Annex B

- .02 Biological Safety Cabinets
by the methods of-
AS 1807.1, 3, .5, .6, .7, .8, .10, .15, .16, .20, .21, .22, .23, .24
NSF 49 methods F2, F3, F5, F7, F9, F11

- .03 Fume Cupboards
by methods of-
AS/NZS 2243.8 Appendices A and B
AS/NZS 2243.9 Appendices A and B

Laminar Flow Hood

In-Line Containment Housings

NATA Certification Services

Airepure Technical Services can provide professional on-site testing and certification services for the following equipment and facilities:

- HEPA filter integrity
- Bio-Hazard Cabinet Certification
- Laminar Flow / Class II / Class 1 / Isolators
- Clean Room Certification
- Particle Counting / Air Change Rates / Room Pressure Differentials / Fumigation
- Indoor Air Quality
- Fume Cupboard Certification

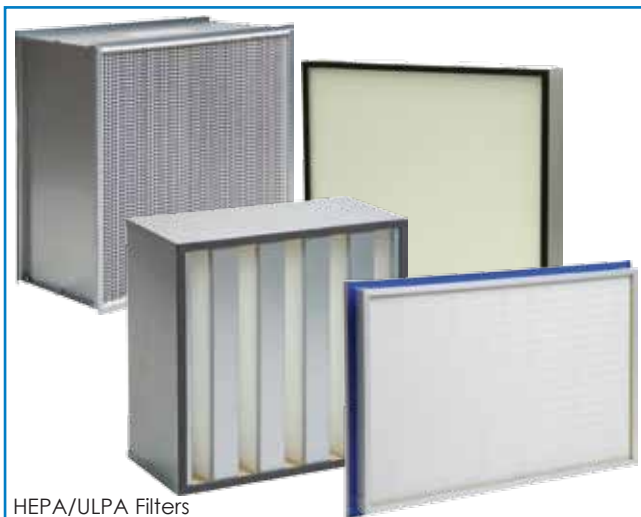

On-site test and maintenance programmes can be specifically designed and tailored to suit the individual requirements of your facility, ensuring that your clean rooms and equipment operate both efficiently and safely.

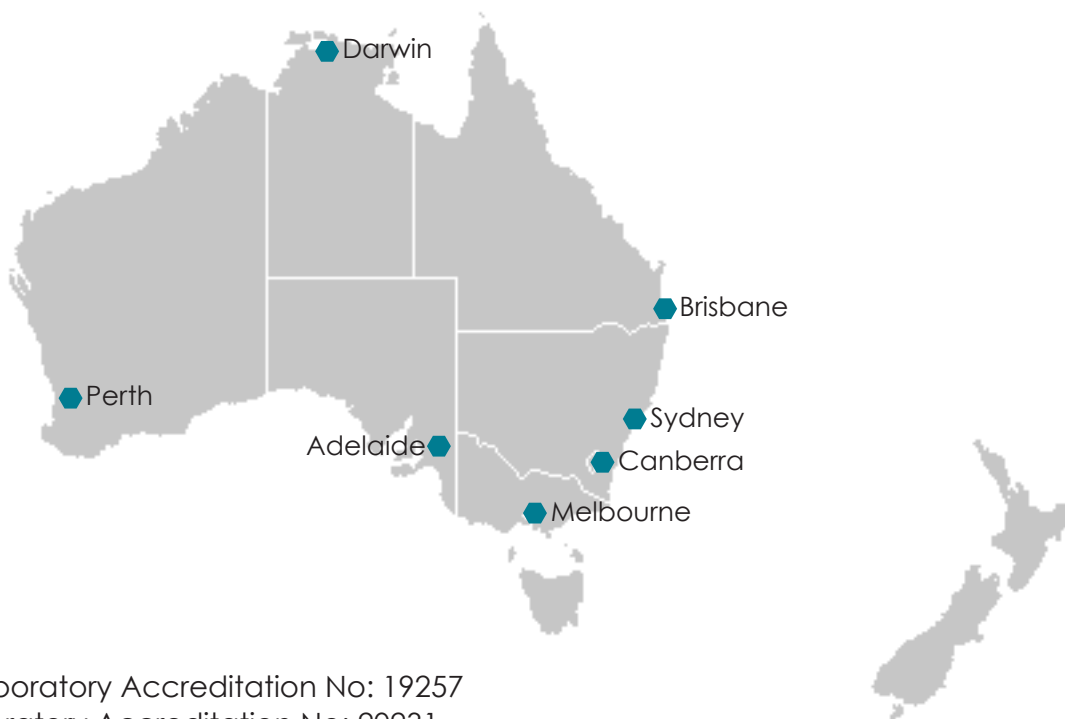

As part of our assesment, you can expect to receive a detailed test report and Certificate of Compliance that includes all relevant details of test procedures and equipment used, analysis of test data, the nature of any repairs and/or adjustments made to the equipment and (where appropriate) any recommendations we may have for future action.

Airepure Products

Airepure Australia is one of the leading air filtration companies in Australia, providing ultra clean air filtration, HEPA filter and air-born containment technologies to science, medical and pharmaceutical industry applications. Our product range includes:

- HEPA/ULPA Filters
 - 95% DOP (min 95%@0.3 μ m efficiency)
 - 99.99%@0.3 μ m efficiency
 - 99.9995%@0.12 μ m efficiency
- FOCUS Clean Air Operating Theatre Ventilation Systems
- HEPA and HEGA Air-born Containment Systems
- Laminar Air Flow Systems
- Associated products
